

Spring 2021 Forensic Science Seminar

Crime Scene Investigations – An Informative Conversation and Overview of CSI Procedures.

This presentation will cover the methodology of how crime scene investigators process crime scenes, coupled with actual case examples to give you insight into the real workings of CSI. Warning - this presentation will include graphic and potentially disturbing images. There will be an informal question & answer session at the end of the presentation in order to answer any general questions you may have.

Speaker: Ken Pomeranz Crime Scene Response Supervisor (Phoenix Police Department)

When: Wednesday 17th March at 2pm

Where: Zoom ID 83718042869 (scan QR code for link)

Who: Open to all faculty, staff and students

Future dates and speakers (subject to change)

31st March – Forensic Taphonomy

14th April - Forensic Toxicologist

**Forks up.
Masks up.**
