

# MA SJHR Program Funding for Students

**Did you know that you can apply for funding for research, travel, and professional development?**

**The MA SJHR program has financial support available for actively enrolled students to help support the following kinds of activities:**

- ▶ **Travel for conferences, workshops, interviews, and/or data collection**
- ▶ **Resources to support research (e.g. software, equipment)**
- ▶ **Grants to help defray the costs of pursuing study abroad or internship opportunities**
- ▶ **And more!**

**A simple application is required. There are two deadlines per year: October 15 and February 15.**

Please note some of the following eligibility guidelines:

- ▶ The application must clearly indicate how the funding request advances the student's ability to complete the MASJHR program and/or contributes to the achievement of their professional goals.
- ▶ Funding will be prioritized for students who have not yet applied/received funds in a given year.
- ▶ Ability to fund proposals depends on availability of funds and the number of requests receive for a given cycle.
- ▶ Students are strongly encouraged to apply for funds available elsewhere, such as through GPSA, GEO, etc. and should reflect these amounts requested or promised in their projected budgets.
- ▶ Students in the campus program who matriculated before Fall 2022 are not eligible to apply for funding.
